

"A Promise to Give Life Another Chance."

We are delighted to invite you

to

dedicated to creating awareness about organ donation, supporting patients and their families, and building a stronger, more compassionate transplant ecosystem.

Join us as we take a meaningful step towards a future where no life is lost for want of hope, support, or an organ.

-:Chief Guest:-

SHRI PRITHVIRAJ HARICHANDAN

Honourable Minister of Law, Works & Excise, Government of Odisha

**4th Sept.
2026**

**10:00 AM
onwards**

Chanakya Convention Hall
Swosti Premium, Bhubaneswar

Your presence will make this journey more meaningful.

ETERNAL GIFT
FOUNDATION

One Gift. Boundless Hopes.

ETERNAL GIFT — FOUNDATION —

• ONE GIFT, BOUNDLESS HOPE •

Organ failure is one of the most serious and emotionally devastating healthcare challenges facing India. Thousands of patients with liver, kidney, heart, lung and other organ failure require transplantation or advanced treatment to survive, yet access to these life-saving interventions remains deeply unequal. The problem is not limited to the availability of organs. Patients and families often face a complex combination of delayed diagnosis, inadequate awareness, shortage of transplant infrastructure, financial hardship, limited access to specialised care, prolonged waiting periods and insufficient post-transplant support. For many families, the ability to receive a transplant is determined not only by medical need, but also by their financial capacity and social circumstances.

In Odisha, these challenges are particularly significant. Patients from rural and economically disadvantaged communities may have to travel long distances to access specialised transplant services, often after exhausting their financial and emotional resources. Even when transplantation is medically possible, the cost of evaluation, surgery, medicines, hospitalisation, travel, accommodation and long-term follow-up can become an overwhelming burden. There is also an urgent need to strengthen awareness about deceased organ donation and to build a culture in which organ donation is understood as an act of compassion that can give another person a second chance at life.

Eternal Gift Foundation is envisioned as a compassionate, non-profit organisation committed to addressing these gaps and ensuring that financial hardship does not become a barrier between a deserving patient and a chance to live. Its central intent is to create a sustainable bridge connecting patients and families with doctors, hospitals, transplant programmes, government institutions, donors, corporates, philanthropic organisations and society.

The Foundation seeks to provide or facilitate financial assistance for organ transplantation and other complex, life-saving medical treatments, particularly for patients who are unable to bear the cost of care. ***It aims to support patients throughout the continuum of treatment—from awareness, diagnosis and evaluation to transplantation, rehabilitation and long-term follow-up—recognising that transplantation is not a single procedure but a lifelong journey.***

A major objective will be to promote awareness and education regarding organ donation, particularly among young people and communities. ***The Foundation intends to encourage informed decision-making, dispel myths and misconceptions, promote ethical and lawful organ donation, and strengthen public participation in deceased organ donation in accordance with applicable Indian laws and regulations.***

The Foundation also recognises that a strong transplantation ecosystem depends not only on infrastructure and funding, but ***on trained, compassionate and specialised human resources. It therefore aims to support education, training and capacity building for volunteers, social workers, transplant coordinators, specialised transplant nurses, intensivists, physicians, surgeons and other healthcare professionals involved in transplantation and critical care.*** Through structured educational programmes, workshops, skill development initiatives, awareness campaigns and professional collaborations, the Foundation seeks to help build a competent and compassionate workforce capable of supporting patients and families at every stage of the transplant journey.

Beyond financial assistance, the Foundation intends to contribute to the development of a ***stronger transplantation ecosystem.*** It may support patient navigation, counselling, rehabilitation, research, education, training, awareness programmes, outreach initiatives and collaborations with healthcare institutions and public authorities. It will seek to encourage innovation and improve access to quality healthcare for vulnerable populations.

The Foundation's vision extends beyond transplantation alone. It aims to support patients suffering from serious and complex illnesses and contribute to a more compassionate, equitable and accessible healthcare system. Through partnerships, CSR initiatives, philanthropy and community participation, it seeks to transform individual acts of generosity into sustainable systems of care.

Ultimately, ***Eternal Gift Foundation believes that every life deserves a fair chance.*** An organ donated by one person can become a lifetime of memories for another. A family's generosity can become another family's future. ***The Foundation therefore seeks to make every gift of life count—by bringing hope closer to those who need it most and by building a society where compassion, dignity and access to life-saving healthcare are not determined by one's ability to pay.***
